

Grant editing services application:

To allow CCIB faculty members to improve grants before submission.

In the current competitive funding environment, CCIB will support Grant Editing Services. Dr. Eric Milner <http://www.biomedicalsciencewriters.com/> is a recommended editor. His rate is \$120/hour. An average time for R01 editing is 9-10 hours. CCIB will support a total of 100 editing hours per year.

To make the process effective, grant resubmissions are given priority, while new grants will be given help on a discretionary basis.

The completed application should be submitted to Peter Fazzino <fazzino@camden.rutgers.edu> only after the PI touched base with Dr. Eric Milner and received an exact quote for the job.

The application for Grant Editing Services must be approved prior to sending it out. A feedback report from the PI on the quality and effectiveness of the editing services is required before invoice payment.
